Start With Medicare Basics

Make sure this plan is a good fit by reviewing the basics

Original Medicare is provided by the federal government and covers some of the costs of hospital stays (Part A) and doctor visits (Part B), but doesn't cover everything. It does not include prescription drug coverage (Part D). Although you are not required to enroll in Part D, there is a penalty of 1% of the average monthly premium for each month you delay enrollment. This must be paid monthly as long as you are enrolled in Part D. Depending on your needs, you may want to add on more coverage.

This is a Medicare Advantage Part C Regional Preferred Provider Organization (RPPO) plan

Your plan is a Regional Preferred Provider Organization (RPPO) plan. With this plan, you have access to a local network of doctors and hospitals. Plus, you can see providers outside the network, as long as they participate in Medicare and accept the plan. You may pay a higher copay or coinsurance when you see an out-of-network provider.

Here's how your RPPO plan works

Select a primary care provider (PCP) from the network.

It's important to select a PCP from the network when you enroll in this plan. However, you are not limited to this PCP. You can visit any PCP in or out of the network. Your PCP can oversee and help manage your care.

You have coverage for emergency care.

Emergency Services and Urgently Needed Services are covered no matter where you go.

There's an out-of-pocket spending limit each plan year.

Once you reach that limit, the plan pays 100% of the future costs for covered services.

You have flexibility in provider choice

The chart below shows what happens when you use network versus out-of-network resources with this plan.

| | In-Network | Out-of-Network |
|---|--|---|
| Will the doctor or hospital accept my plan? | Yes | Providers have the choice to accept the plan. |
| Does this plan require a referral to see a Specialist or other providers? | No | No |
| What will I pay for covered services? | You pay your plan copay or coinsurance.* | You may pay a higher copay or coinsurance.* |

There's a Medicare Part D Late Enrollment Penalty

Although you are not required to enroll in Part D, there is a penalty of 1% of the average monthly premium for each month you delay enrollment. This must be paid monthly as long as you are enrolled in Part D.

^{*}If you have both Medicare and Medicaid, your services are paid first by Medicare and then by Medicaid. Your Medicaid coverage depends on your income, resources and other factors. Some get full Medicaid benefits. For an explanation of the categories of people who can enroll, please see the Medicaid section of the Summary of Benefits. You can find a complete listing of network providers and facilities within your plan on our website.

Are you eligible for this plan?

You are eligible for a Dual Special Needs Plan (DSNP) if you're enrolled in Original Medicare Parts A and B and receive state Medicaid benefits. Your state Medicaid benefits vary based on your level of Medicaid eligibility. DSNP enrollment is available once per calendar quarter during the first three quarters of the year (January – September) based on your qualifying election type. Based on your needs you may also qualify for Low Income Subsidy (LIS) assistance.

What are the levels of eligibility in most states?

- Qualified Medicare Beneficiary Only (QMB Only)
- Qualified Medicare Beneficiary Plus (QMB Plus)
- Specified Low-Income Medicare Beneficiary Only (SLMB Only)
- Specified Low-Income Medicare Beneficiary Plus (SLMB Plus)
- Qualified Individual (QI)
- Qualified Disabled and Working Individual (QDWI)
- Full Benefit Dual Eligible (FBDE)

What are the income requirements for each eligibility level?

| QMB Only QMB Plus | At or lower than | |
| SLMB Only SLMB Plus | Between 100% and 120% | Resources not more than two times |
| QI | Between 120% and 135% | |
| QDWI | Below 200% | |
| FBDE | Based on Medical Need status, institutionalized income levels, home/community based waivers | |

What benefits does each eligibility level cover?

Medicaid Benefits

Information for People with Medicare and Medicaid. Your services are paid first by Medicare and then by Medicaid.

The benefits described below are covered by Medicaid. You can see what Division of Medical Assistance covers and what our plan covers. If a benefit is used up or not covered by Medicare, then Medicaid may provide coverage. This depends on your type of Medicaid coverage.

Coverage of the benefits described below depends upon your level of Medicaid eligibility. No matter what your level of Medicaid eligibility is, UnitedHealthcare Dual Complete® RP (Regional PPO SNP) will cover the benefits described in the Covered Medical and Hospital Benefits section of the Summary of Benefits. If you have questions about your Medicaid eligibility and what benefits you are entitled to, call Division of Medical Assistance, 1-800-662-7030.

Medicaid may pay your Medicare cost sharing amount, but it will depend on your Medicaid eligibility level. If Medicare doesn't cover a service or a benefit has run out, Medicaid may help, but you may have to pay a cost share. Please see your Medicaid Member Handbook for details on the cost sharing and additional benefits covered.

2019 Medicare Star Ratings*

The Medicare Program rates all health and prescription drug plans each year, based on a plan's quality and performance. Medicare Star Ratings help you know how good a job our plan is doing. You can use these Star Ratings to compare our plan's performance to other plans. The two main types of Star Ratings are:

- 1. An Overall Star Rating that combines all of our plan's scores.
- 2. Summary Star Rating that focuses on our medical or our prescription drug services.

Some of the areas Medicare reviews for these ratings include:

☐ How our members rate our plan's services and care;

☐ How well our doctors detect illnesses and keep members healthy;

☐ How well our plan helps our members use recommended and safe prescription medications.

For 2019, UnitedHealthcare received the following Overall Star Rating from Medicare.

Plan too new to be measured

We received the following Summary Star Rating for UnitedHealthcare's health/drug plan services:

Health Plan Services: Plan too new to be measured

Drug Plan Services: Plan too new to be measured

The number of stars shows how well our plan performs.

Stand-alone Medicare Prescription Drug Plans (Part D)

Medicare Prescription Drug Plan (PDP) — A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private Fee-For-Service Plans, and Medicare Medical Savings Account Plans.

Medicare Advantage Plans (Part C) and Cost Plans

Medicare Health Maintenance Organization (HMO) — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare HMO Point-of-Service (HMO-POS) Plans — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. HMO-POS plans may allow you to get some services out of network for a higher copayment or coinsurance.

Medicare Preferred Provider Organization (PPO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors, providers and hospitals but you can also use out-of-network providers, usually at a higher cost.

Medicare Private Fee-For-Service (PFFS) Plan — A Medicare Advantage Plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you — not all providers will. If you join a PFFS Plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage Plan that has a benefit package designed for people with special health care needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA Plans combine a high deductible health plan with a bank account. The plan deposits money from Medicare into the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare Cost Plan, you can go to providers both in and out of network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare but you will be responsible for Medicare coinsurance and deductibles.

Other Related Products

Dental/Vision/Hearing Products — Plans offering additional benefits for consumers who are looking to cover needs for dental, vision, or hearing. These plans are not affiliated or connected to Medicare.

Hospital Indemnity Products — Plans offering additional benefits; payable to consumers based upon their medical utilization; sometimes used to defray copays/coinsurance. These plans are not affiliated or connected to Medicare.

Medicare Supplement (Medigap) Products — Insurance plans that help pay some of the out-of-pocket costs not paid by Original Medicare (Parts A and B) such as deductibles and coinsurance amounts for Medicare approved services.

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract and a Medicare-approved Part D sponsor. Enrollment in these plans depends on the plan's contract renewal with Medicare.

In most cases, if Social Security or RRB accepts your request for automatic deduction, the first deduction from your Social Security or RRB benefit check will include all premiums due from your enrollment effective date up to the point withholding begins. If Social Security or RRB does not approve your request for automatic deduction or there is a delay in setup, we will send you a paper bill for your monthly premiums. | T T | Need help with your prescription drug costs? |
| | If you have a limited income, you may be able to get Extra Help with your prescription drug costs. If you qualify, Medicare could pay for 75% or more of your costs, including monthly prescription drug premiums, annual deductibles, and coinsurance. Additionally, you won't have a coverage gap or late enrollment penalty. Many people are eligible for these savings and don't even know it. If you qualify for Extra Help with your Medicare prescription drug coverage costs, Medicare will pay all or part of your plan premium. If Medicare pays only part of your premium, we will bill you for the amount that Medicare doesn't cover. |
| | For more information about this Extra Help, contact your local Social Security office, or call Social Security at 1-800-772-1213. TTY users should call 1-800-325-0778. You can also apply for Extra Help online at www.socialsecurity.gov/prescriptionhelp. |
